Summary

I'm a Junior Web Developer constantly improving my technical skills and logical thinking. I started my developer journey in 2020 when I learned the basics of programming and created my first web application from scratch with the help of Green Fox Academy and their 3 week course #MyFirstApp. Their structure helped me to get familiar with Html, CSS, JavaScript, git and GitHub. After that brief introduction to coding, I got excited and continued learning using Udemy and YouTube with multiple courses about modern JavaScript (ES6+), HTML/CSS Flexbox, and CSS Grid.

In September 2021 I took the important step and joined a Web Development (700h) course in Lisbon at Wild Code School. It was an awesome journey, where we built projects in teams using the latest technologies: JavaScript, React.js, Express, Node.js and MySQL Database. The school helped me grow and gave me the opportunity to work in a team on a project for @IDUN technologies.

I finished the bootcamp in February 2022 and I'm currently looking for a Junior Web Developer position - EU on-site, remote or hybrid in Lisbon, Portugal. In my spare time I practice singing; I'm passionate about music and that drove me to get an associate degree at Prague Conservatory.

Experience

React Developer - IDUN Technologies

Dec 2021 – Feb 2022 (2 months)

- * Working on a Project for IDUN technologies is an opportunity provided by Wild Code School.
- I'm taking part in creating an internal application in React.js.
- As a team we work on back-end in Node.js, Express.js.
- We are applying scrum methodology. Sprints and user stories.

Technical Support Advisor - Teleperformance

Aug 2020 - Dec 2020 (5 months)

- Trained in MacOS operating system and related products.
- Troubleshooting system and network problems.
- Diagnosing hardware or software faults.
- Set up new user's accounts
- Helping customers with password issues.

Coffee Bar Attendant - Nostress Bakery

Sep 2018 - Feb 2019 (6 months)

- Assist customers with product selection.
- Make recommendations and suggestions based on customer needs.
- Prepare coffee and other beverages.
- Processing cash transactions.

Education

Wild Code School - Web and mobile development training Sep 2021 - Feb 2022

Web Development at Wild Code School is an intensive five months course that focus on learning HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, Git Bash and GitHub. The purpose of this course is to practice those skills on group projects. As a final task we build a project for a company.

Prague Conservatory - Associate's degree, Singer Jun 2013 – Jun 2019

I dedicated six years of studying popular music and singing at Prague Conservatory. I learned modern vocal techniques, acting, dancing, methodology of teaching, history of music and music theory.
